## PROFILE

Software development student with three years experience in software quality assurance. Critical thinker with demonstrated success in fast-paced, high-pressure environments gained through experience as a Laboratory Technician at a large hospital. A self-starter with a passion for learning.

## EMPLOYMENT HISTORY

### Software Development Student, Zip Code Wilmington

Wilmington, DE

Oct 2018 – Present

- Spending 80+ hours per week building proficiency with core Java in addition to other languages and frameworks including SQL, Spring, Ionic, Angular, and JavaScript/TypeScript.
- Projects:
  - Casino Game Application: Worked in a team of 6 persons, using Java and TTD methodologies to create blackjack, craps, and go-fish. Responsible mainly for the blackjack game and provided support to team where needed.
  - Scientific Calculator: Worked in a 3-person team to build a command line based calculator with basic and scientific functionalities, which we later independently incorporated the user interface. Mainly in charge of developing calculation method class.
  - Bokeh: A photo-sharing application which was inspired by Instagram. Worked independently on building an application where users can personalize their photo feeds, upload, share, and comment on photos.

### Laboratory Technical Assistant, Crozer-Keystone Health System

Upland, PA

May 2015 – Oct 2018

- Quality-assured laboratory specimens in preparation for analysis
- Performed, analyzed, and reported manual chemistry and microbiology tests
- Provided guidance to doctors and nurses regarding tests to order and specimen collection
- Maintained and trouble-shoot the Beckman Coulter's automation line

### Medical Secretary, Crozer-Keystone Health System

Upland, PA

Jan 2013 – May 2015

- Performed administrative and secretarial duties of a fast-paced medical unit
- Electronically transcribed physicians' orders for medications, treatments, diagnostic studies, and diets
